Wilson Frame Kit

Protect your patient and protect the Wilson Frame

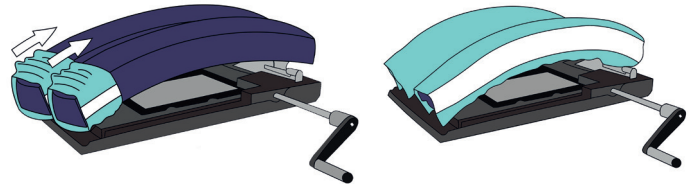

The Wilson Frame Kit will help you to help your patient by:

- ◆ Supporting and protecting your patient from pressure related injury
- ◆ Aiding infection control
- ◆ Memory Foam layer provides extra comfort to your patient

Wilson Frame Covers

- ◆ Protect the Wilson Frame from wear and tear
- ◆ Aid cleaning and improve infection control

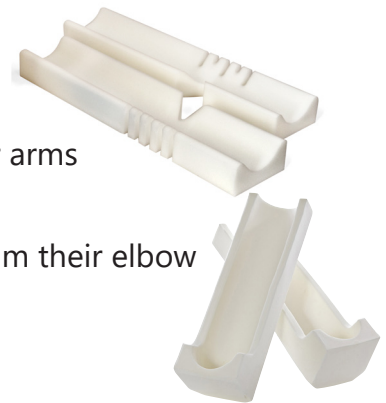

Square Drape

- ◆ Place under the frame to protect the operating table and aid cleaning

Arm Support Cushions - choose between

- ◆ Classic Absolute Arm Supports reduce pressure on the fore and upper arms
or
- ◆ Choose Absolute Forearm Supports to support your patient's arms from their elbow to their wrist *Request the Absolute Arm Support leaflet for more information*

Cross-Bar Roll

- ◆ Place under the frame to protect the operating table and aid cleaning

Absolute Face Support Cushion - Large

- ◆ Support your patient's face & reduce periorbital/intraocular pressure & facial oedema
- ◆ Use with any of the Absolute helmets or the ProneView
- ◆ Also available in size small for smaller adults and children

Prone-Lite Helmet and Angle Pads

Wilson Frame ProThe base of this helmet has been specially angled, and when used with an Absolute Face Support Cushion it supports and protects your patient's face and avoids over extending your patients neck. For further proning options it can be used with a set of Absolute Helmet Angle Pads. *Request the Absolute Prone-Lite and Angle Pads leaflets for more information*
